OFFICE OF THE CHIEF CONTROLLER OF IMPORTS

IMPORTANT TRADE CONTROL

Public Notice

New Delhi, the 3rd July 1947

No. 1-Gen(94)/47.—In the Press Note issued on the 16th May it was announced that the whole Import Trade Control policy has been reviewed with a view to make the best possible use of India's foreign exchange resources and to further restrict the import of certain types of consumer and other unessential goods which have arrived in the country in very substantial quantities. As a result of this review, it has been decided that no licensee should be granted for certain articles. In order to dissuade importers from making applications for articles

for which no licensee would be granted, a list of the items covered is given in Appendix I to this Notice.

2. Licences for machinery and certain essential raw materials will be granted freely a list of such items is given in Appendix II to this Notice.

3. Licences for other items will be granted either on quota basis or on merits. For the purpose of calculation of quotas the year 1945-46 has been taken as the basic year except in the case of certain specified items for which different basic years have been adopted.

4. Applications for licences for the July—December, 1947 shipping period may be made so as to reach the proper licensing authority on or before the 25th July, 1947. Applicants should estimate their sixmonthly requirements of the same item from all sources and make applications accordingly. Separate applications should be made for each different article and for imports from each different country.

5. Applicants are advised that they should furnish the detailed information required in the prescribed form of application including figures of their imports in the period 1st April, 1945 to 31st March, 1946 supported by copies of Customs bills of entry, invoices, etc. The precise ultimate object for which the goods are to be imported should also be stated. Importers who have not imported the goods concerned in the basic year but have imported them in any other year should furnish figures of such imports together with necessary supporting evidence.

6. The limiting factor in all cases will be the c.i.f. value and importers are advised so to adjust their orders that the value for which a licence has been granted is not exceeded, on any account.

7. The above instructions apply to goods falling under Parts II to V of the Import Trade Control Schedule attached to Commerce Department Notification No. 23-I.T.C./43, dated the 22nd June, 1946.

8. As regards items falling under Part I of the Import Trade Control Schedule, applications should be made to the Steel Import Controller or Development Officer (Non-ferrous metals).

9. The procedure for the licensing of capital goods is not affected by these instructions. Capital goods will continue to be licensed as at present.

APPENDIX I.

List of items which will not be licensed at all.

Part and S. No. of the Schedule annexed to Commerce Department Notification No. 23-I.T.C./43, dated 1st July 1943.
